

Creative Listening / Accompaniment Skills & Comforting the Bereaved Workshops

Now available online

The workshops are suitable for anyone wishing to learn how to listen attentively, accompany another on their journey through life and who wish to increase in confidence when drawing alongside the bereaved. The course would particularly benefit those working within a pastoral care setting. The aim is to equip those willing to invest their time and compassion in the lives of others with the necessary understanding, awareness, attitudes and skills.

The course will involve presentations, group work, discussions, demonstrations and students will have opportunity to practice the skills in order to apply the principles introduced on the course.

Both days compliment each other but equally work as individual training days.

CPD certificates will be available.

Date: Saturday 24th October 2020

**Creative Listening/ Accompaniment Skills workshop,
